

About EcoCentric

Designer and television presenter **Oliver Heath** (BBC1's Changing Rooms, and the forthcoming ITV1 Dream Homes series) co-founded online design store, **EcoCentric** in 2006. **EcoCentric** offers a range of beautifully designed environmentally friendly products, reflecting Oliver's **Urban Eco-chic** style, and presents opportunities through good design to reduce your carbon footprint.

Oliver has combined his knowledge of eco-materials with his strong designer's eye for style to bring together the most **coordinated collection** of eco-interiors and lifestyle products available today, offering today's smart, environmentally attuned customers an alternative to traditional, unsustainable products.

All of the products have been chosen for their environmentally friendly principles: either because they use low levels of energy, or are crafted from sustainable materials or recycled items. Together they create a stunning and coordinated look for your home.

With its wide range of stylish home and lifestyle goods, EcoCentric is the perfect place to have a **green wedding gift list**. With beautiful basics for a couple setting up a first home, to unique and exclusive gifts those who already think they have everything; EcoCentric is the first choice for Eco-chic style.

If you are spoilt for choice, EcoCentric offer an **e-gift voucher**, giving your loved one flexibility to choose from our range to meet their personal eco-style.

EcoCentric brings together contemporary design with increased environmental awareness. The website tells the story behind each item, providing customers with insightful information on how to implement a 'greener' lifestyle, so you can better understand the eco credentials of what you buy.

All items are available online at www.ecocentric.co.uk and by phone on 0207 739 3888

For further information, images or samples, please contact Niki on (020) 7739 3888, or email niki@ecocentric.co.uk
